

# Land Economy Grows Sunflowers Competition 2021

Getting started on 26th March

Pam's pot - Yes they are in there!

Carolyn's (left) beaten by her own tomato plant (below) at least 8ft!

Pam's flower got there in the end (left)

Sadly although Andrea's grew it was outdone by her neighbours

A BIG Thank You and well done to everyone who took part...

- |                |                |
|----------------|----------------|
| Andrea         | Megan          |
| Barbora        | Mick           |
| Carolyn        | Pam            |
| Daryl          | Sarah          |
| David          | Shaun          |
| Elaine         | Thies and Liv  |
| Hannah         |                |
| Kwadwo         | And me (Lynda) |
| Laura and Lexi |                |

AND the winner is...

**Liv Lindenthal** with her massive bloom measuring over 8ft—not sure what she was feeding it!

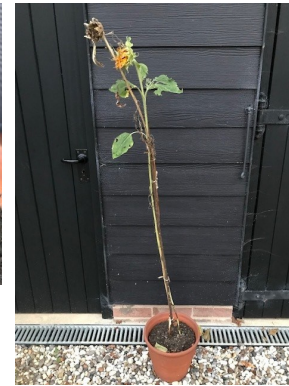

And they're off...

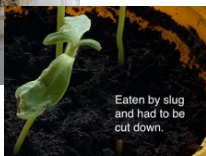

Elaine bravely trying hers straight in the ground but alas they died

Daryl's plant despite an unwelcome guest managed to grow quite high

Kwadwo's doing well inspite of being attacked by a slug

And those who sadly didn't get theirs to grow: David, Sarah, Shaun and others...

AND a very impressive close second was **Mick**
